### Experience

#### Social Thingum, Developer Intern

Sep 2022 - Feb 2023

I worked on the development of a chatbot aimed at streamlining students' access to courses on an e-learning platform. My role involved developing this solution to enhance the student experience in accessing online educational content.

### Education

#### SUPSI, MS in Interaction Design

Sep 2023 - Present

Currently studying in Mendrisio at SUPSI where I'm working to several project in the field of Interaction Design.

My focus spans from user research to the design of digital experiences, and from the use of digital fabrication techniques to the creation of engaging installations.

#### University of Milan, BS in Computer Programming

Sep 2019 - Apr 2023

I have acquired the fundamentals of programming, covering both backend and frontend development. I've completed several projects, ranging from web to mobile applications, while also delving into the field of Human-Computer Interaction for the first time.

### Skills

**Design:** Interaction design, UI/UX design, User flows, Wireframes, Mock ups, Prototyping

**Research:** Interviews, Card sorting, Surveys, Customer journey, Personas, User scenarios, Insights
